About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

Introductory

The present volume constitutes the 1956 edition of Henderson's Directory of Regina. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have proved so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY at the back of the Book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

REGINA POPULATION, estimated in excess of 75,000

The Directory estimate of population is based on the actual number of individual's names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Regina Directory covers considerable territory beyond, but tributary to the city limits which is canvassed in order that the names of all people employed or who purchase in Regina may be obtained.

ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully, The Publishers,

October, 1956.

Ch of St. Ignace made the first recorded entry on the present site of Regina when he arrived there in 1848 on his way to Wood Buffalo where he had been ordered to go by the bishop of St. James. He stayed in Regina after his arrival in the fall of 1848, before leaving for Montreal. He said that he had been told by a man named "Hog" that there was a place to be found in the north of the St. James River where he would find a good place to build a mission. It was intended to name the place Victoria, in honor of the Queen, but that name had already been bestowed on the Capital of British Columbia. The matter was referred to the Queen, who gave the name of Queen Victoria, which is sound and was the only honor a mother of a nation, and she suggested the name England. The settlement had sprung up in the spring of that year.

It became the Provincial Capital when Saskatchewan was formed in 1905.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is.—

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1000 Subscribers—each one would have to absorb 1/1000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity There is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.

About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$
$$1,067,500$$

After the new ones come out
your advertisement in the di-

these directories will still be
in active use. Your advertise-
ment is still in service
